

How to receive a Turvaposti message:

A notification of a Turvaposti message sent to you arrives in your regular e-mail.

1. Open the email and click the link enclosed.
2. Enter the password disclosed by the sender → the message opens.
3. Open and save possible attachments.

You can reply to the message using the “Reply” function.

Type the message and include possible attachment(s).

You can accept the suggested random password or replace it and enter your own password. The password is delivered automatically to the recipient's mobile phone via SMS.
